

STEAM
WNY BRAIN CHALLENGE

BECOME A MENTOR!

The WNY Brain Challenge is an engineering competition for middle & high school students, brought to you by MISSION: IGNITE Powered by Computers For Children.

The object is to build a Rube Goldberg contraption - think of the game Mouse Trap. Teams consist of no more than 6 kids and a supervising teacher. Everyone on the winning team - the students, the teacher and the mentor receives a laptop computer!

We are looking for corporate mentors to work with teams to provide guidance and real world experience. This is an exciting opportunity and a great way for individuals and/or corporations to give back to their community.

Teams usually meet once or twice a week after school. Mentors typically meet with students 3 or 4 times leading up to the competition, but are certainly not limited to that!

Competition: 5.24.18 | 9am-1pm | ECC South
