

Presenting the 3<sup>rd</sup> Annual

# WNY BRAIN CHALLENGE

A Rube Goldberg Style Competition for Students in Grades 6-12  
A true STEAM experience fully aligned with Common Core & NGSS

---

Dear Fellow STEAM Enthusiast:

MISSION: IGNITE Powered by Computers for Children is pleased to present the 3<sup>rd</sup> annual WNY Brain Challenge, a Rube Goldberg style competition. This exciting opportunity for middle school and high school students is designed to engage students in fun, hands-on experiential STEAM learning.

We are looking for corporations to support our mission and invest in the next generation of STEM leaders! Ideally, sponsor organizations will develop long-term partnerships with us and the students we serve. Our goal is to encourage STEAM skill development and provide students with the skills needed for future careers and higher education.

Please contact me to discuss how your organization can get involved and help kids succeed! We will customize a sponsorship package to meet your needs.

Best regards,

Alex Passarell

Development Coordinator

*"Thank you for coordinating and connecting us to the Brain Challenge! The students thought critically, had to problem solve, use ingenuity, be innovative, collaborate, and demonstrate leadership and responsibility. The gains that the children made will follow them throughout their lives and have truly molded them into even more successful individuals!"*
